

MY FIRST ITALIAN CLASS:

I was excited about my first italian lesson because it's my first time teaching someone. There were about 12 guys in my class so it was a big responsibility for me. I'm glad to see there are such a lot of people interested in learn italian, because i think it's one of the most beautiful languages and it's also the fourth most studied language in all the world.

I decided to start from the italian alphabet, some phonetic rules (like the pronunciation of ci-ce; chi-che; gli-gn; gi-ge; ghi-ghe) and some italian expressions.
