

What do you think is a person's most valuable treasure?

WRITER: LEYLA CEREN BONCUKCU

If you ask me, it is the dreams hidden in a person's inner world that shape their hopes, aspirations and goals for the future.

The colors that come to life on a painter's canvas, the fascinating stories that a writer creates with his pen, and the invention of an inventor that comes to life after countless trials...

While I'm dreaming, a window opens from earth to other planets. Planets that have never been visited before, unexplored, vast and full of unknowns. On this journey I take alone, I discover myself most of all.

"IF YOU CAN DREAM IT, YOU CAN DO IT."

WALT DISNEY

A person's imagination is the basis for expressing their creativity and potential.

People shape their future with their dreams. How many people believe in their dreams?

I have so many dreams waiting to be realized. I'm proud of myself for the dreams that have come true. I have taken the first step for some dreams, I know it will be a long journey, sometimes in colorful gardens full of flowers, sometimes in rough terrain. Sometimes I will run with all my energy, sometimes I will get tired, but I will never give up.

Some dreams will come to life in a much more beautiful way than I ever imagined. Others will remain just a dream.

"A DREAM BECOMES A GOAL WHEN ACTION IS TAKEN TO ACHIEVE IT."

BO BENNETT

People have been dreaming for centuries. Imagination has played a major role in human progress, discoveries and new inventions. The beauty of imagination is that it can have a huge impact not only on an individual level, but also on a societal level. Great leaders, world-changing innovators and artists all share the common trait of being dreamers.

Edison inventing the lightbulb and the Wright Brothers building airplanes are just a few examples of the power and potential of dreams.

When they told their dreams, many people did not believe them. They didn't need external motivation. They had faith in themselves, hopes that fueled their dreams and goals to reach. They knew that success isn't a destination.

"THE GREATEST ACHIEVEMENT ISN'T TO NEVER FALL, BUT TO GET UP AGAIN EVERY TIME YOU FALL."

CONFUCIUS

Achieving a goal is often a process of trial and error. In order to succeed, it is necessary to risk the possibility of failing many times over. Inventions, new ideas and artistic works are the result of countless trials and errors. Artists, idealists, inventors were people who exceeded their own limits and abilities, but also failed many times.

I see my failures as experiences in the goal I will reach one day. I know that behind a success there are many experiences of failure. Success is a journey, not a destination. Long journeys also start with a little courage. If we put a little effort along with our dreams when we set out, success is not far from us! I hope that our journey ends with beautiful stories to tell.

SOME PEOPLE ONLY DREAM OF SUCCESS, WHILE OTHERS WAKE UP EARLY IN THE MORNING AND MAKE THEIR DREAMS COME TRUE.
